

AMPOULE HORIZONTAL PENDANT

DESCRIPTION:

The horizontal model combines functional illumination with a refined decorative aesthetic. Suspended above worktops and dining tables in residential interiors, or reception desks and meeting tables in commercial settings, its clean, linear profile lends a sense of understated character to its surroundings.

The integrated 2700K linear LED is concealed within an opal acrylic diffuser, producing a soft, even glow through the reeded glass. Dimmable output allows the light level to be adjusted from practical task illumination to a softer, more subdued ambience.

DETAILS:

GLASS SHADE QTY:	1
WEIGHT:	APPROX. 3.5 KG
